The Kewanee Area United Way 2027 website Grant Application is open June 22, 2026. The process has been updated from former years. Please be aware of the following information.

APPLICATIONS:

The application will be available June 22, 2026; due by July 13, 2026. Applications will only be accepted via email. All information must be included with no exceptions. Please note that this includes attachments. Each application must include the current **Memorandum of Agreement and the Counter Terrorism Compliance form**. Forms or attachments will not be accepted separate from the application. The application may be submitted with a typed signature; however, the MOA and CTC forms must be signed by the appropriate person; a typed signature will not be accepted. These two forms can be found on the kauw.org website. Click on the Resources Tab.

Prior receipt of grants does not guarantee continued funding. Grants are given based on the projected needs in the KAUW service area, programs or agencies applying as well as changes in other funding expected by the applicant, changes in Federal and State prioritization of available funds. The Board of Directors will review grant applications in August and notifications will be sent via email in September; notification of grant amounts will be sent to recipients in mid-December. All funding is based on the current year's overall donations.
